

FINAL SEMINAR OF BLUE NIGHT PROJECT
THE ENVIRONMENTAL IMPACT OF "BLUE TOURISM" IN TERMS
OF LIGHT POLLUTION
18 - 21th September, 2023

University Brest France (UBO) – University of Cadiz (UCA) – University of Malta (UM)
19th September 2023. Room B001 Faculty of Letters, UBO.

For more information, please contact : edna.hernandez@univ-brest.fr

“Blue Nights” is a scientific exploratory project founding by SEA-EU Alliance UBO (2022-2023). It focuses on the impact of light pollution, specifically in touristic areas like Britany (France), Cadiz (Spain) and (Malta). The Blue Nights teams set of common criteria for the analysis in various case studies in the three countries, in order to propose an initial methodology that can be replicated in other regions. At this closing seminar, we will be presenting the initial results and the next steps in the project. As well the others presentations linked to our topic.
